Q1: Do you have any contracts for any kind of transportation in Perry Co.? I just need something to base our contract off of.

A1: All of our services are currently provided under our contracts with a public agency, Perry County Transit. Perry County Job and Family Services does not have a specific contract for private transportation at this time. Attached please find copies of our current NET contract and our TANF contract. Please note that our other public agency transportation contract rates align with the TANF contract attached.

Note: the pdf versions of our contracts that were shared with the response are listed as separate documents on the same page as this Q&A document and RFP.
